

Recommendations

Recommendations by the youths...

For a long time we, the young people from different countries who have participated in this Forum, have been thinking about the issues that concern us directly or indirectly.

1. Health

- More information about sexually transmitted diseases and family planning.
- More information about drugs and other toxic substances.
- More medical centres in underprivileged areas.

2. Education

- Avoid gathering so-called “young people with integration problems into the school system” in the same schools, in order not to increase exclusion.
- Fight illiteracy through specific projects.

3. Rights of children and young people

- Fight the prostitution of children by applying stricter sanctions.
- More efficiency in the struggle against ill-treatment and abuse.
- Respect the implementation of the Convention on the Rights of the Child.
- More respect with regard to freedom of expression.
- Fight the abuse of power of certain authorities (the police, school...)

4) Culture

- More access to culture.
- Recognition of the cultural values of young people.
- More cultural structures accessible to young people.

5) Social

- More follow-up of the social and professional rehabilitation of young people.
- More recognition of the social street workers.
- More local social structures in underprivileged areas.
- More help and follow-up for families of young people in difficulties.

6) Sport and leisure

- More local sport infrastructures.
- More professional management of these sport centres.
- Free access to sport structures.
- More provision of equipment.
